WORK EXPERIENCE

Freelance AI & Marketing Automation Specialist
Freelancer

05/2024 - Present — *Hamburg*

Achievements/Tasks

- Built production Django/PostgreSQL web applications with HTMX and modern frontend technologies.
- Architected a multi-agent SEO automation pipeline using OpenAI + n8n, reducing keyword research time from 4h to under 20 min per campaign.
- Designed and deployed containerized infrastructure (Docker, PostgreSQL, Redis, Nginx) across 3 production services with 99.9% uptime.
- Built LLM-powered content generation workflows integrating Claude Code, OpenAI and webhook-based automation triggers.
- Managed 5+ automation projects on GitHub with full CI/CD documentation.

HEAD OF INFRASTRUCTURE
UMFST - UMCH Medical University - Hamburg

07/2018 - 06/2024 — *Hamburg*

Achievements/Tasks

- Led end-to-end IT infrastructure for a 4,600m² smart building serving 800+ daily users — zero critical security incidents over 6 years.
- .Designed and operated Cisco Meraki network and firewall infrastructure ensuring 99.9% uptime for academic and administrative operations.
- Implemented and optimized Canvas/Instructure LMS for 700+ students and medical staff, improving system performance by 40%.
- Integrated KNX, DALI and Crestron building automation systems for centralized control of lighting, energy and smart infrastructure across 6 floors.
- Managed access control and surveillance systems (Interflex) with full compliance to German data protection standards (DSGVO).

Digital Transformation & SEO Project Manager
CLEOPATRA ADVERISING SRL / Neumarkt A.M.

05/2011 - 08/2018 — *Neumarkt A.M.*

Achievements/Tasks

- Built and scaled a web design & digital marketing agency from 0 to 15+ active clients, focused on SEO-driven lead generation.
- Developed and optimized 20+ WordPress & Joomla websites with technical SEO — average organic traffic increase of 60% within 6 months.
- Implemented on-page and technical SEO strategies resulting in first-page Google rankings for competitive Romanian market keywords.
- Designed and integrated ERP and automation systems to streamline client reporting and internal business processes.
